## Do you have the right amount of protection?

Even with employer-paid life insurance, it may not be enough for your needs.

Supplemental Life Insurance provides additional financial security for your loved ones in the event you are no longer around to earn a paycheck. Appropriate coverage can help replace that lost paycheck and help your loved ones maintain their standard of living.

You should also keep in mind that insurance needs may increase as your life changes, and you may have more to protect—for example, getting married, starting a family or purchasing a home.

A premature death is likely to exert a major or devastating impact on financial security, lifestyle and general savings.<sup>5</sup>
