Visual Pipeline: See Every Candidate, Every Stage

Hiring moves fast. Your pipeline should too. Visual Pipeline transforms applicant management into a dynamic experience that gives your team instant clarity on where every candidate stands and what needs attention next.

Visual Pipeline brings your entire hiring process into one streamlined view. See candidates by stage, spot bottlenecks before they slow you down, and move applicants forward without the back-and-forth. It's hiring visibility built for momentum.

Available on Essential and Pro. Pro customers unlock custom pipeline configurations tailored to the way their team hires.

How It Works

Visual Pipeline lives on your Applicants page alongside powerful new tools designed to keep your process organized and moving:

- **Visual Hiring Pipeline:** View your entire hiring process in a single drag-and-drop interface. Track candidate progress by stage, identify where candidates are stalling, and take action without leaving the view.
- **Additional Filters & Sorting:** Narrow your applicant list instantly with enhanced filtering and sorting. Find the right candidates faster without scrolling through noise.
- **AI Candidate Ranking:** Surface your best-fit applicants automatically with AI-powered match scoring, so your team focuses time where it matters most.

Try it out in your account now

Login to your applicant tracking system to see this game-changer in action.
